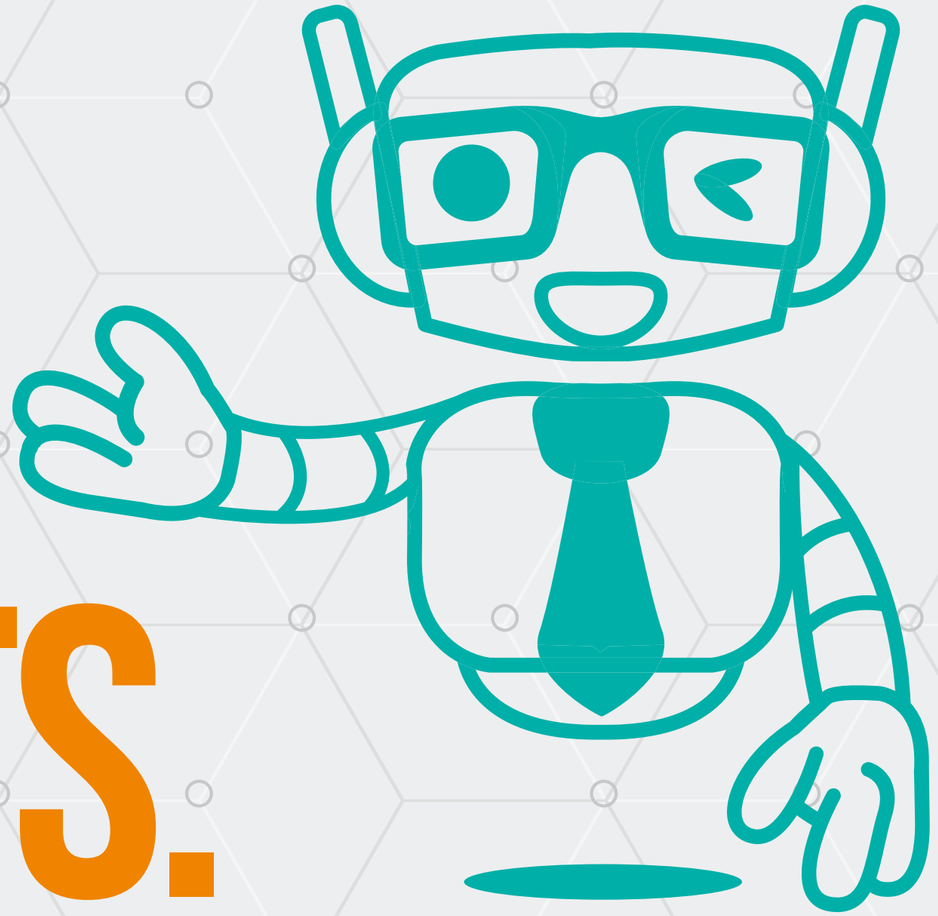
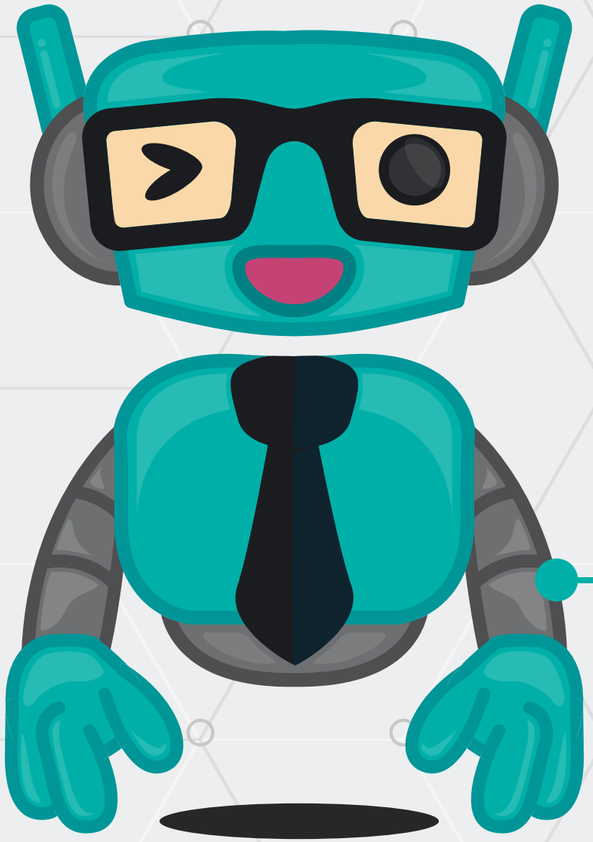
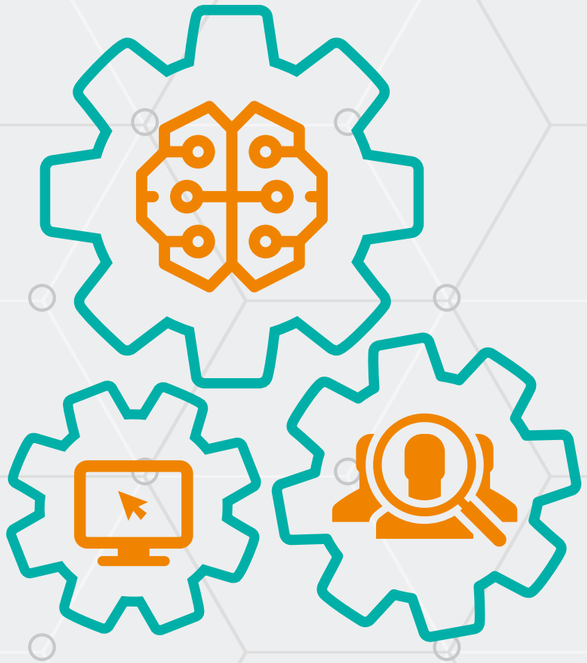
BECAUSE YOUR CLIENTS
DON'T EXPECT TO WAIT!



HOW ABOUT USING ADVANCED TECHNOLOGY AND ARTIFICIAL INTELLIGENCE TO INNOVATE AND BETTER INTERACT WITH YOUR CLIENTS?



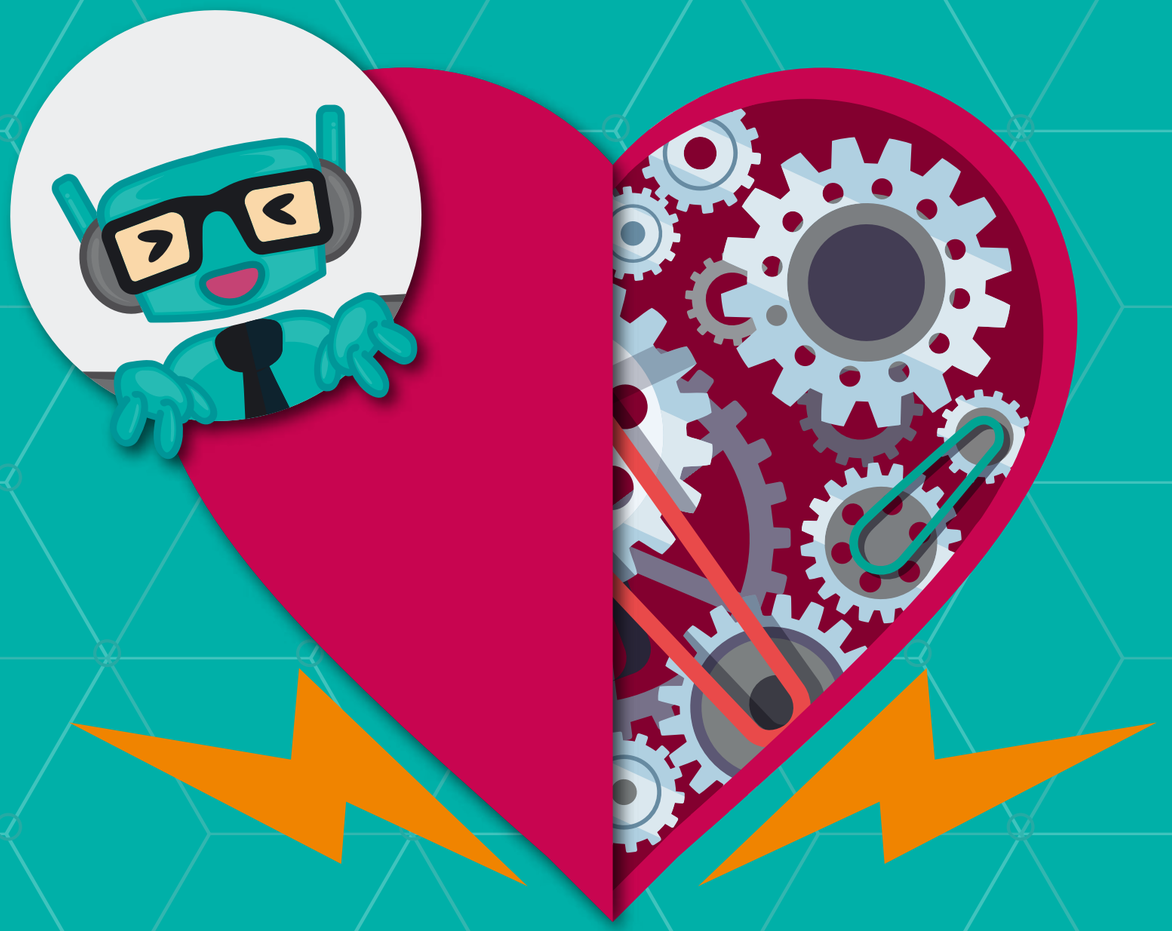


Chatbots are created to friendly and effectively interact with your clients. You can have properly trained assistants, available 24 hours, 7 days a week.

NO PROGRAMMING, WITH PERSONALITY

Intelichat is a platform for building chatbots and virtual assistants without programming, as easily as drawing a flow.

You can design chatbots by yourself, without knowledge in programming. All it takes is to draw a flow and configure dialogues.



PRODUCTIVITY
PRODUCTIVITY
PRODUCTIVITY

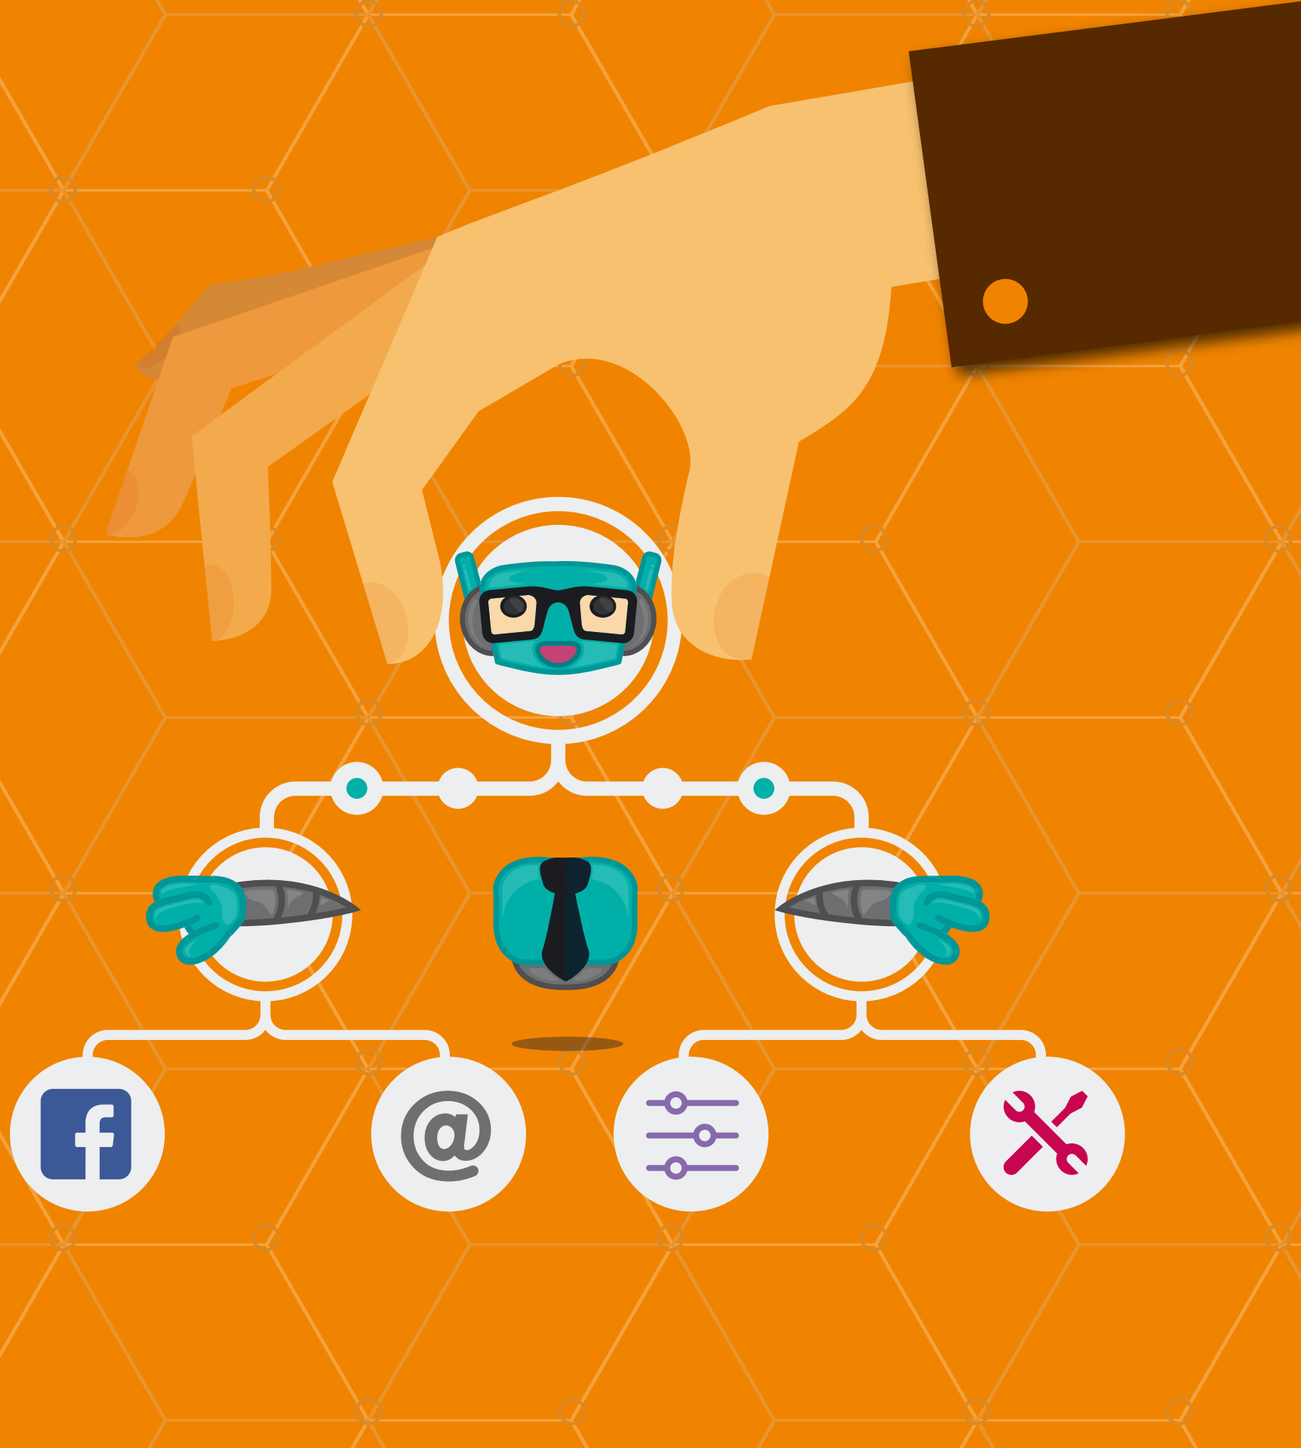
Gain productivity and benefits with chatbots, using natural dialogues in problem-solving, information distribution, content publishing and much more.

HYBRID MODEL

Put humans and chatbots working side-by-side; human beings in noble tasks, chatbots on repetitive tasks. Each one doing his best.

EASY AND FAST FROM THE BEGINNING TO THE END

Build chatbots designing flows.
Use interactions with multiple-choice questions, qualifications and content exhibition.
Integrate with external systems.
Publish chatbots to messenger with a few clicks.



KNOW YOUR CUSTOMERS BETTER

With Intelichat, you get valuable information and insight about your customers. Instead of forms, use automated dialogues to gather data. At each interaction, learn about your customers.
